Octagons (8 sides) and squares. Dodecagons (12 sides) and triangles. - Since the sides of the shapes must be the same length,... Dodecagons, hexagons and squares. Pentagons - Regular pentagons won't make a tessellation,...Patchwork Paper Templates . Accurate shapes, beautifully presented and great customer service. 29 May 2019. Start the summer with a New Project: How about trying 3cm hexagon paper templates, each side measures 1.5cm so about the size of a 2p coin plus the six corners.This is a tessellated design made entirely of patterned fabric. To achieve the tessellation, contrasting colors were carefully placed in the quilt. This quilt is made up entirely of 2" squares. In the pencil sketch there are 2 figures which demonstrate the addition of color to this design. Figure A - is a grid of squares that will make up the design
